Learning iOS Programming - Code With Chris

Learning iOS programming is no different. The best way to start is to open up XCode and try to build a Hello World demo. For non-programmers, this is simply an app that outputs Hello World on the screen when you run it. From there, learn how to layout some UI Elements on the screen and how to respond to user interactions and gestures. Then learn how to introduce a second view into your app and how to navigate between the two views. Finally, learn how to use the UITableView control so
