Daryn Lehoux | Department of Classics  
What Did the Romans Know? (Chicago, University of Chicago Press, 2012) Reviews: the most original and provocative contribution to the understanding of ancient science in many years, a brilliant and important contribution both to ancient science and the philosophy of science" ( Annals of Science, 71.2); This book is a jewel. What Did the Romans Know? eBook by Daryn Lehoux ...

What did the Romans know about their world? Quite a lot, as Daryn Lehoux makes clear in this fascinating and much-needed contribution to the history and philosophy of ancient science. Lehoux contends that even though many of the Romans views about the natural world have no place in modern science the umbrella-footed monsters and dog-headed people that roamed the earth and the stars that foretold human destinies their claims turn out not to be so radically different from our own.
